## **1. Introduction**

1.1 These qualifications have been developed to seek to ensure that practitioners engaged in industrial and work-based training and assessment, qualification delivery and consultancy can demonstrate competence at the appropriate level.

1.2 These requirements have been specified in the National Occupational Standards (NOS) developed by the Learning and Skills Improvement Service (LSIS) in liaison with employers and industry/ sector representatives. These qualifications are based upon those NOS and incorporate the Qualification Structures approved by SQA Accreditation.

1.3 Successful completion of these qualifications will allow candidates to show they have sufficient knowledge, understanding and skills to demonstrate competence in assessing and/ or verifying learning.

1.4 This Handbook provides the information required to assist approved centres in delivering the qualifications and preparing candidates for assessment. This includes some template forms that may be used / adapted by centres. Note that you are able to create your own, or use existing forms for this purpose. Alternatively, QFI makes its E-Portfolio system available to its approved centres.

This document should be read in conjunction with QFI's policies and the Centre Handbook.

## **2. Qualification objective(s)**

2.1 The qualification is suitable for apprentices / those already in employment that wish to develop their knowledge and skills in assessing and/ or verifying at these levels.

## **3. Progression**

3.1 This qualification is primarily designed to allow candidates to progress to employment in roles relating to assessing and/or verifying. These roles may be in addition to other roles. Successful completion of either of these qualifications may therefore lead to additional employment opportunities.

3.2 Candidates achieving either of these qualifications may also wish to progress to related qualifications including the stand-alone unit Externally Monitor and Maintain the Quality of Workplace Assessment.

3.3 Candidates may also choose to undertake qualifications in more generic subjects such as a health and safety in the workplace; management etc.

## 4. Entry requirements

4.1 Candidates must be at least 16 years of age to be able to undertake these qualifications.

4.2 Candidates taking these qualifications must be made fully aware of what they entail. Centres must be satisfied that candidates have the experience and skills and will have sufficient assessment / verification opportunities within their job role to provide evidence of competence. Where this may not be the immediate case, candidates should check with their employer whether they are able to go out with departmental or immediate job role boundaries to gain the necessary assessment opportunities.

4.3 A sample induction checklist is included at Appendix 1.

## 5. Qualification structures

5.1 The structure for these qualifications was set by LSIS and approved by SQA Accreditation.

### SVQ in Learning and Development at SCQF level 8

5.2 To achieve this qualification candidates must achieve 6 units:

- 3 mandatory units
- 3 optional units

#### Mandatory Units:

SSC code	Title of mandatory unit (must complete all units)	SCQF level	SCQF credits
LSILADD04	Plan and Prepare Specific Learning and Development Opportunities	7	8
LSILADD08	Engage and Support Learners in the Learning and Development Process	8	10
LSILADD10	Reflect on, Develop and Maintain Own Skills and Practice in Learning and Development	7	4

#### Optional units:

SSC code	Title of optional units Group A – Candidates must complete at least one unit	SCQF level	SCQF credits
LSILADD06	Manage Learning and Development in Groups	8	10
LSILADD07	Facilitate Individual Learning and Development	8	11

SSC code	Title of optional units Group B – Candidates may complete as many as necessary	SCQF level	SCQF credits
LSILADD02	Identify Individual's Learning and Development Needs	8	8
LSILADD05	Develop and Prepare Resources for Learning Development	8	8
LSILADD13	Evaluate and Improve Learning and Development Sessions	8	8
LSIYW3.3.1 v2	Develop Productive Working Relationships with Colleagues	5	9
L&D9D	Assess Workplace Competence Using Direct Methods	7	8
L&D9DI	Assess Workplace Competence Using Direct and Indirect Methods	8	10

### SVQ in Learning and Development at SCQF level 9

5.2 To achieve this qualification candidates must achieve 8 units:

- 3 mandatory units
- 5 optional units

#### Mandatory Units:

SSC code	Title of mandatory unit (must complete all units)	SCQF level	SCQF credits
LSILADD03	Plan and Prepare Learning and Development Programmes	9	12
LSILADD13	Evaluate and Improve Learning and Development Sessions	9	12
LSILADD10	Reflect on, develop and maintain own skills and practice in learning and development	7	4

#### Optional units:

SSC code	Title of optional units Group A – Candidates must complete at least one unit	SCQF level	SCQF credits
LSILADD0	Identify Collective Learning and Development Needs	9	12
LSILADD02	Identify Individuals' Learning and Development Needs	8	8

LSICLD4.3.3 v2	Manage Finance for your Area of Responsibility	8	14
SFJCPS9.4	Manage Quality Systems	9	5

All units are included in Appendix 2 of to this document.

## **6. Assessment**

### **6.1 Roles and responsibilities**

There are a number of people involved in the assessment process and the role of each needs to be clearly understood by each.

- Candidates – must familiarise themselves with the content of the units that they are taking and how these are to be assessed. They should co-operate with the assessment process, looking for opportunities to evidence the elements and gathering evidence where this arises. Candidates must take on board feedback

from their assessor and work with their assessor to develop realistic plans for assessment. An Assessment Plan and Review template is included at Appendix 3.

- Assessors - must familiarise themselves with the content of the units that they are assessing and how these are to be assessed. They must assist candidates in identifying assessment opportunities, gathering, and presenting evidence. Assessors must assess all elements and record these assessments. Templates for recording elements, and for unit achievement, are at Appendix 4. Assessors must feedback and work with candidates to identify any gaps and develop realistic plans for assessment. They must also work with the Internal Verifier and External Verifier to ensure a common standard of assessment.
- 
- Internal Verifiers – sometimes known as Internal Quality Assurers (IQAs), their role is to ensure that the assessment process is appropriate, consistent, fair and transparent; that assessors receive on-going support and that they are assessing to a common standard; and that awards are valid, reliable and consistent. IVs must develop a strategy that includes standardisation activities such as reviewing samples of evidence from each assessor, and countersigning the decisions of unqualified assessors.
- External Verifiers - sometimes known as External Quality Assurers (EQAs), are appointed by QFI and are independent of the centre. Their role is to check that internal processes are in place to ensure robust, consistent assessment. This includes sampling assessment evidence.

## **6.2 The assessment process**

Assessment for this qualification, and for individual units that comprise the qualification, must take place in accordance with the Assessment Strategy (developed by LLUK and updated by LSIS in 2012).

This document translates the requirements of the assessment strategy and gives guidance to ensure that centres meet these.

Centres delivering the qualification must ensure that assessors and Internal Verifiers are aware of the assessment strategy and how to access this. External Verifiers may check this requirement during monitoring visits to centres.

Assessment involves the following key stages: planning; producing evidence; assessing evidence; recording. Each of these is considered in more detail below.

### **6.2.1. Planning**

The assessor must create an Assessment Plan with each candidate that he/ she will be assessing. The Assessment Plan will need to be reviewed as the candidate progresses through the units. A template for assessment planning and review is at Appendix 3 of this document.

A wide range of assessment methods exist that can be used to assess knowledge and skills. Methods of assessment that are commonly used for assessing competence-based qualifications such as SVQs include the following:

- Direct observation – where an assessor (or credible witness) will directly observe the candidate undertaking certain tasks/ creating products that occur as part of their role. Observations must be referenced to the elements covered
- Question/ answer – these will often supplement the methods above, for example the assessor may ask the candidate a number of questions whilst they are undertaking a task. Questioning is a useful way to establish knowledge and to generate evidence of this
- Witness testimony – credible witnesses may be identified who can for example testify that the candidate can successfully undertake certain tasks
- Personal statement – declaration made by the candidate that should be referenced to elements

For these qualifications there are specific requirements written into the Assessment Plan as follows:

#### **Unit L&D9D Assess workplace competence using direct methods**

This Unit must cover direct assessment methods including observation; related questioning; and inspecting work products (created at the time of the observation)

#### **Unit L&D9DI Assess workplace competence using direct and indirect methods**

This Unit must cover direct assessment methods including observation; related questioning; inspecting work products (created at the time of the observation) and must also cover indirect assessment methods including examination of work products (created at the time of observation and not created at the time of observation); discussing with candidates; testimony of others (witnesses); examining candidate statements; assessing candidates in simulated environments; accreditation of prior learning or achievement.

Template assessment documents including an Assessor Report can be found at Appendix 3.

### **6.2.2 Producing evidence**

Evidence of occupational competence of all units at any level, should be generated and collected through performance under workplace conditions. This includes the knowledge-based learning outcomes and assessment criteria of the (SVQ) competence units.

These conditions would be those typical to the learner's normal place of work. The evidence collected under these conditions should also be as naturally occurring as possible. It is accepted that not all employees have identical workplace conditions and therefore there cannot be assessment conditions that are identical for all learners. However, assessors must ensure that, as far as possible, the conditions for assessment should be those under which the learner usually works.

All performance evidence must come from real workplace practice in Learning and Development, Assessment and Verification. The use of simulation is not allowed for these qualifications.

### **6.2.3 Assessing evidence**

Evidence must be assessed against the units/ elements to establish whether the candidate is competent with regards to their performance and knowledge. In order to achieve the qualification candidates must achieve a 'pass'. The evidence must show that the candidate consistently (i.e. on more than one occasion) meets all of the elements of each unit.

If there is insufficient evidence to make this judgement then plans must be made as to how the candidate can produce further evidence in order to demonstrate competence.

Assessors must check that the evidence produced is sufficient in volume, relevant and current. They must also be confident that the evidence has been generated by the candidate. Assessors and candidates normally sign documentation to declare that the evidence produced is that of the candidate and no other.

### **6.2.4 Recording evidence**

Evidence (or reference to where certain evidence is located) is normally kept in a portfolio. This may be paper-based or electronic. All evidence contained within the portfolio must be clearly referenced to the units and elements. Candidates' progress can therefore be tracked. Note that certain pieces of evidence can be recorded across more than a single element. Tracking is important to show where this is that case.

It is helpful to give each piece of evidence a number so that this can be mapped across elements. See the template forms at Appendix 4. Assessment decisions made against the evidence must also be recorded so that an IV or an EV can see these. All evidence must be kept for internal and external verification.

## **7. Assessors**

7.1 The occupational competence of assessors is defined in the Assessment Strategy (developed by LLUK and updated by LSIS in 2012).

7.2 The roles and responsibilities of assessors are outlined in the section above. Assessors must have up-to-date working knowledge and experience of best practice in the relevant area of practice and hold or be working towards one of the following:

- L&D9DI Assess workplace competence using direct and indirect methods
- A1 Assess candidate performance using a range of methods
- any appropriate QCF qualifications and/or Units as recognised by SQA accreditation
- or hold D32 Assess candidate performance and D33 Assess candidate using differing sources of evidence

7.3 Assessors must also:

- have a sound, in-depth knowledge of, and uphold the integrity of, the relevant NOS and Assessment Strategy to enable them to carry out assessment to the standards specified
- show current evidence of continuing professional development in the relevant area of practice by demonstrating they continue to meet the standard set out in L&D10 Reflect on, develop and maintain own skills and practice in learning and development. The EV may check this at centre visits.
- know QFI's requirements for recording assessment decisions and maintaining assessment records

7.4 Assessors and IVs must be registered with QFI. The Centre Handbook provides details.

7.5 The assessment decisions of unqualified assessors must be countersigned by a suitably qualified assessor or the IV. Note that if they are assessing either L&D9D, L&D9DI, L&D11 or L&D12, they **must** hold one of the assessor qualifications specified above, not just be working towards it.

## **8 Internal verification**

8.1 Centres' internal assessment processes and practices must be effective and support the integrity and consistency of the qualification. This is achieved through the internal quality assurance that is undertaken by the approved centre, and the external quality assurance that is undertaken by QFI. Centres must operate explicit, written internal quality assurance procedures to ensure the accuracy and consistency of assessment decisions between assessors operating at the centre and that assessors are consistent in their interpretation and application of the qualifications or unit(s) learning outcomes

8.2 Centres must appoint IVs who will be responsible for:

- regular sampling evidence of assessment decisions made by all assessors across all aspects of assessment for the qualification. Sampling must include direct observation of assessment practice
- maintaining up-to-date records of IV and sampling activity (what was evidence was sampled or assessors / IV observed where there is more than one) and ensuring that these are available for external quality assurance
- establishing procedures to ensure that all assessors interpret the learning outcomes in the same way
- monitoring and supporting the work of assessors
- facilitating appropriate staff development and training for assessors
- providing feedback to the EV on the effectiveness of assessment

- ensuring that any corrective action required by QFI is carried out within agreed timescales.

8.3 Centres must ensure that the decisions of unqualified IVs are checked, authenticated and countersigned by an IV who is appropriately qualified and occupationally expert. QFI will monitor a centre's compliance with these requirements through monitoring visits and certification claims.

8.4 The IV is also responsible and accountable for arranging the checking and countersigning process. IVs may verify only evidence that they did not assess themselves. Further guidance on internal quality assurance/verification is provided in the **Centre Handbook**. Appendix 5 of this document indicates suggested content for an IV strategy, and a template for sampling assessment evidence.

8.5 All assessors and verifiers are required to maintain current Team Leading and Management competence to deliver these functions. Such information must be formally recorded in individual CPD records that maintained in assessment centres.

## 9 Internal verifiers

9.1 The occupational competence of IVs is defined in the Assessment Strategy (developed by LLUK and updated by LSIS in 2012).

9.2 The roles and responsibilities of IVs are outlined above. IVs must have up-to-date working knowledge and experience of best practice in the relevant area of practice and hold one of the following:

- L&D9DI Assess workplace competence using direct and indirect methods
- A1 Assess candidate performance using a range of methods
- any appropriate QCF qualifications and/or Units as recognised by SQA accreditation
- D32 Assess candidate performance and D33 Assess candidate using differing sources of evidence

9.3 They must either hold or be working towards one of the following internal quality assurance qualifications:

- L&D11 Internally monitor and maintain the quality of workplace assessment
- V1 Conduct internal quality assurance of the assessment process
- or hold D34 Internally verify the assessment process

If they are internally verifying either L&D9D, L&D9DI, L&D11 or L&D12, they **must** hold one of the specified internal verifier qualifications, not just be working towards it.

9.4 IVs must also:

- have a sound, in-depth knowledge of, and uphold the integrity of, the relevant NOS and Assessment Strategy to enable them to carry out internal verification to the standards specified
- show current evidence of continuing professional development in the relevant area of practice by demonstrating they continue to meet the standard set out in L&D10 Reflect on, develop and maintain own skills and practice in learning and development. The EV may check this at centre visits.
- know QFI's requirements for recording internal verification decisions and maintaining internal verification records

9.5 IVs must be registered with QFI. The Centre Handbook provides details.

## 10 External verification

10.1 External verification of these qualifications ensures that the requirements are met for the Assessment Strategy (developed by LLUK and updated by LSIS in 2012).

10.2 Those who externally verify these qualifications or units must have up-to-date working knowledge and experience of best practice in the relevant area of practice and hold one of the following:

- L&D9DI Assess workplace competence using direct and indirect methods
- A1 Assess candidate performance using a range of methods
- any appropriate QCF qualifications and/or Units as recognised by SQA accreditation
- D32 Assess candidate performance and D33 Assess candidate using differing sources of evidence

They must hold one of the following internal quality assurance qualifications:

- L&D11 Internally monitor and maintain the quality of workplace assessment
- V1 Conduct internal quality assurance of the assessment process
- any appropriate QCF qualifications and/or Units as recognised by SQA accreditation
- D34 Internally verify the assessment process

They must hold or be working towards one of the following external quality assurance qualifications:

- L&D12 Externally monitor and maintain the quality of workplace assessment
- V2 Conduct external quality assurance of the assessment process
- any appropriate QCF qualifications and/or Units as recognised by SQA accreditation
- D35 Externally verify the assessment process

If they are externally verifying either L&D9D, L&D9DI, L&D11 or L&D12, they **must** hold one of the specified external verifier qualifications, not just be working towards it.

All EVs must show current evidence of continuing professional development in the relevant area of practice by demonstrating they continue to meet the standard set out

in L&D10 Reflect on, develop and maintain own skills and practice in learning and development. QFI requires EVs to submit annual CPD records.

10.3 Centre visits will normally take place on an annual basis, though these could be more frequent if deemed necessary as a result of QFI's risk assessments. The Centre Handbook provides further details on external verification including to prepare for centre visits.

## **11 Certification**

11.1 Note that there is a lapsing period of four years for these qualifications. This means that when the qualifications expire, are withdrawn or replaced by revised versions, candidates registered have four years from the expiry date in which to complete the qualification. This will allow sufficient time for candidates to complete and allow for currency of evidence.

## **12 Equality and diversity**

12.1 This qualification must be assessed in English.

12.2 Assessment must be inclusive and where appropriate reasonable adjustments made to ensure equality of access in line with QFI's Equality and Diversity Policy. Full details are included in the QFI Centre Handbook.

12.3 Special consideration is not normally given for competence-based qualifications as it is necessary for candidates to demonstrate that they have the necessary skills and knowledge to achieve the qualification and operate safely in the workplace.

12.4 Equality data will be collected at the point of registration. This is optional, and for monitoring purposes only. This will include age, gender, ethnicity, and disability.

## **13 Fees**

13.1 The current fees for this qualification, and for individual units, are included in the QFI Fees and Invoicing document. This document also details what is/ is not included in fees.

13.2 Fees may be broken down to a reasonable level upon request to QFI.

### MANDATORY UNITS

#### LSILADD04

#### Plan and prepare specific learning and development opportunities

##### Overview

This standard is about planning and preparing specific/individual learning and development opportunities, for example formal training sessions or informal experiences such as periods in the workplace. It applies to planning for individuals as well as planning for groups.

##### Performance criteria

You must be able to:

- P1 identify the purpose and outcomes of specific learning and development opportunities in relation to agreed goals
- P2 communicate aims and objectives to learners
- P3 identify how specific learning and development opportunities will be delivered and/or facilitated and managed
- P4 identify the resources needed to deliver and/or facilitate specific learning and development opportunities
- P5 identify how learning and development opportunities will be monitored and evaluated
- P6 ensure preparations and arrangements for delivery and /or facilitation, management and evaluation are carried out in sufficient time
- P7 ensure plans are appropriate to identified learning needs and meet organisational and legal requirements.

##### Knowledge and understanding

You need to know and understand:

- K1 the importance of having clear outcomes for specific learning and development opportunities
- K2 different methods of communicating aims and objectives to learners
- K3 options for delivering and / or facilitating different types of learning and development opportunities
- K4 factors to consider in selecting suitable delivery and facilitation methods
- K5 the range of planning considerations relevant to ensuring that equality, diversity and where relevant, bilingualism needs are met
- K6 factors that need to be considered in the management of different learning and development opportunities and how to deal with these factors
- K7 the resources, including technology, available to support delivery and / or facilitation and management of learning and development opportunities
- K8 the advantages and disadvantages of different types of resources in meeting learner needs
- K9 the types of preparations that need to be undertaken for different learning opportunities and why each of these is important
- K10 how to carry out a risk assessment in relation to planning for specific learning and development opportunities, and the contingencies which should be put in place in response to risk assessments
- K11 the operational requirements that should be considered in planning specific learning and development opportunities, including organisational, health and safety, budgetary and legislative guidelines.

## Glossary

**Delivery methods:** Any method that supports learning and development, for example, presentations, instructions, demonstrations, opportunities to apply knowledge and practise skills, experiential learning, group and individual projects and research

**Learning and development opportunities:** Any event that assists the acquisition of skills and knowledge. This includes formal sessions as well as experiences such as visits, time spent in the workplace, personal research etc.

**Outcomes:** These could be outcomes for the group as a whole – for example enabling team effectiveness – and/or outcomes for the individuals who make up the group – for example individual skill acquisition

**Resources:** This covers any physical or human resource that supports the learning and development process and could include technical equipment, IT-based learning, handouts, workbooks, people – for example outside speakers – and visits to places of interest

**Risk assessments:** This could be a formal and written risk assessment but could be informal and dynamic – monitoring and controlling risk on an ongoing basis. Risk includes health and safety but may also cover e.g. finance, availability of resources etc.

## LSILADD08

### Engage and support learners in the learning and development process

#### Overview

This standard is about supporting learners through the learning process by, for example, providing them with information and advice, helping them overcome barriers, helping them access the learning and experience they need, monitoring progress against expected standards and providing constructive feedback.

#### Performance criteria

You must be able to:

P1 establish and maintain a positive relationship with the learner which encourages and motivates learning

P2 provide the learner with information and advice relevant to their needs

P3 enable the learner to engage with, and contribute to, their own learning

P4 assist the learner to access the skills, knowledge and experience they need

P5 help the learner overcome any barriers that prevent them taking a full part in the learning process

P6 support the learner in taking responsibility for their own development

P7 monitor the learner's performance against expected standards and provide evidence of achievement to others as required

P8 provide constructive feedback to the learner

P9 review learner progress and help them adapt their plans as necessary.

### Knowledge and understanding

You need to know and understand:

- K1 the characteristics of a relationship that supports learner's progress and provides them with motivation to learn
- K2 the types of information and advice that learners may require and how to provide or access this
- K3 different strategies to enable learners to engage with learning
- K4 aspects of equality and diversity that need to be addressed when supporting learners
- K5 the range of techniques through which different types of learners can contribute to their own learning
- K6 the types of barriers to learning that different types of learner's experience and how to address these
- K7 how to help individuals with different types of learning needs access the skills, knowledge and experiences they need to progress
- K8 the boundaries of own role and when to refer the learner to other sources of help and support
- K9 the range of resources, including support from others and technology based solutions, that are available to support learners
- K10 why it is important that learners take responsibility for their own learning and different methods of helping them to do so
- K11 methods that can be used to enable learners to provide honest and constructive feedback on their experiences and how to use this feedback when it has been collected
- K12 methods that can be used to monitor learner's performance against required standards
- K13 different methods of presenting evidence of learner achievement to others
- K14 different methods of providing the learner with constructive feedback and how to use these methods effectively
- K15 the importance of reviewing learner progress and appropriate times to do so
- K16 the factors which are important in helping learners to review their progress and, where necessary, adapt their plans for learning and progression.

### Glossary

**Barriers:** Anything that might prevent the learner taking a full part. This could include, for example, lack of confidence or essential skills and knowledge

**Expected standards:** The standards the learner should achieve as part of their learning programme. These could include national occupational standards or standards set by other types of qualifications

**Learning process:** This may include experience, such as time in the workplace, as well as formal and informal training

**Provide evidence of achievement:** This could include providing witness statements to qualified assessors.

## LSILADD10

### Reflect on, develop and maintain own skills and practice in learning and development

#### Overview

This standard is about reflecting on current practice, identifying own learning and development needs and taking part in continuing professional development.

#### Performance criteria

You must be able to:

- P1 identify current performance requirements relevant to your practice
- P2 identify trends and developments relevant to own skills, knowledge and practice
- P3 identify and critically reflect on how own beliefs and attitudes influence own practice
- P4 seek feedback, collect information and continually reflect on own performance
- P5 assess the extent to which own practice is inclusive and promotes equality and diversity
- P6 review and evaluate own skills, knowledge and practice against available information
- P7 prioritise areas for development and plan how learning and development will be achieved
- P8 inform relevant individuals and use appropriate systems to report and address factors that impact negatively on own practice
- P9 access development needed to carry out own work more effectively and continually use a range of resources to keep own knowledge, skills and practice up to date
- P10 keep records of own actions, development plans and progress, and use them to support and inform ongoing reflective practice
- P11 apply new knowledge and skills to consolidate learning, improve own practice, and review the effectiveness of newly acquired knowledge and skill
- P12 share knowledge, skills and improvements to practice with colleagues where it is likely to be of benefit own.

#### Knowledge and understanding

You need to know and understand:

understand:

- K1 the extent and limitations of the requirements and responsibilities associated with own role
- K2 the health and safety practice and personal and social skills relevant to own area of work and management of own workload
- K3 team, organisational and own professional goals

## OPTIONAL UNITS

**LSILADD06**
**Manage learning and development in groups**
**Overview**

This standard is about using a range of methods to enable group members to learn and develop in a safe and supportive learning environment.

**Performance criteria**

You must be able to:

- P1 manage a group environment in which individuals feel valued, supported, confident and able to learn
- P2 communicate with learners in a way that meets individual and group needs
- P3 make learners aware of the outcomes they are expected to achieve and how the planned activities will support these
- P4 use a range of delivery methods, activities and resources to meet the needs of all group members, as appropriate to planned outcomes
- P5 balance and adjust delivery to meet individual needs while achieving planned group outcomes and agreements
- P6 monitor learner response and use appropriate strategies to motivate learners individually and collectively
- P7 encourage effective communication within the group
- P8 maintain the health and safety of learners, self and other people.

**Knowledge and understanding**

You need to know and understand:

- K1 the learners needs, requirements and planned outcomes relevant to their own areas of work
- K2 the types of learning resources available, including those that are technology enhanced, that can support learning and development in groups
- K3 the factors to consider when selecting and using learning and development resources to facilitate learning and development in groups
- K4 the characteristics of a group environment that foster learning and development for all those involved
- K5 different techniques to manage group dynamics
- K6 aspects of equality, diversity and, where relevant, bilingualism, that need to be addressed when facilitating learning and development in groups
- K7 different ways of encouraging behaviour and values that foster mutual respect and support the learning and development process
- K8 the importance of own communication skills and different ways to communicate effectively with groups, and individuals within groups
- K9 the range of delivery methods appropriate to learning in groups
- K10 how to co-ordinate learning and development activities to meet individual and group needs
- K11 the types of motivational strategies that would support group and individual learning and how to select these according to identified needs
- K12 techniques that can be used to monitor learner response
- K13 different ways of adapting delivery according to learner response whilst still achieving planned outcomes and agreements
- K14 how to assess and manage risk in own area of work whilst facilitating learning and development in groups.

**Glossary**

**Delivery methods:** Any method that supports learning and development, for example, presentations, instructions, demonstrations, opportunities to apply knowledge and practise skills, experiential learning, group and individual projects and research

**Environment:** This includes the physical environment in which learning and development takes place but also covers group dynamics and behaviour

**Health and safety:** This includes physical health and safety as well as emotional well-being

**Outcomes:** These could be outcomes for the group as a whole – for example enabling team effectiveness – and/or outcomes for the individuals who make up the group – for example individual skill acquisition

**Requirements:** These could be the requirements of the practitioner's own organisation or those of an external organisation, such as funding body or awarding organisation

**Resources:** This covers any physical or human resource that supports the learning and development process and could include technical equipment, Information Technology-based learning, handouts, workbooks, people – for example outside speakers – and visits to places of interest

**Risk:** This refers to any risk to the effective facilitation of the group. Risks may be to individual learners, to the group as a whole or to those facilitating. This includes health and safety risks but may also include, for example, the risk of delivery methods not being appropriate.

**Other people:** This refers to others who may be involved in, or affected by, the learning activities, for example, staff members, volunteers, assistants or people in the same.

## LSILADD07

### Facilitate individual learning and development

#### Overview

This standard is about using a range of methods to enable individuals to acquire or improve skills and knowledge and practise their application in context. It also covers providing feedback to learners and encouraging them to reflect on and improve what they do. This standard could be achieved as part of a coaching and/or mentoring relationship.

#### Performance criteria

You must be able to:

- P1 establish and maintain a professional relationship with the learner that supports individual learning and reflection
- P2 explore and agree the learner's objectives, learning needs and goals
- P3 agree a plan of learning, application and reflection
- P4 use a range of methods and resources to help the learner acquire/develop the skills and knowledge they need
- P5 support the learner in applying their learning in context
- P6 provide constructive and motivational feedback to improve the learner's application of learning
- P7 assist the learner to reflect on their practice and experience
- P8 adapt learning, application and reflection to meet further needs P9 maintain the health and safety of the learner, self and other people.

### **Knowledge and understanding**

You need to know and understand:

- K1 the principles, uses and value of learning and development on an individual basis
- K2 the characteristics of a relationship that supports individual learning, application and reflection
- K3 aspects of equality and diversity that need to be addressed when facilitating individual learning and development
- K4 the importance of reflective practice in individual learning and development
- K5 key factors to consider when setting and agreeing goals with individual learners
- K6 the range of delivery methods appropriate to individual learning
- K7 the range of resources, including support from others, that are available to support individual learning
- K8 how technology can enhance resources and delivery methods for individual learning
- K9 the range of techniques that can be used to encourage reflective practice by the learner
- K10 how to support different types of learners in applying new or enhanced learning in context
- K11 the types of barriers that learners encounter and how to develop strategies to overcome these
- K12 how to adapt learning plans in response to learner progress and reflection whilst still focusing on learner needs and desired outcomes
- K13 how to assess and manage risk in own area of work whilst facilitating learning and development for individuals.

### **Glossary**

**Application:** The process applying new or improved skills and knowledge in a real or realistic context, for example a work situation

**Goals:** This refers to interim targets or steps towards learners meeting overall outcomes and objectives

**Health and safety** This includes physical health and safety as well as emotional well-being

**Learner objectives:** These will usually be performance objectives – for example doing something or doing something better

**Methods:** Any method that supports individual learning and development, for example, instructions, demonstrations, opportunities to apply knowledge and practise skills, experiential learning, individual projects and research

**Other people:** This refers to others who may be involved in, or affected by, the learning activities, for example, staff members, volunteers, assistants or people in the same area

**Reflection/reflective practice:** The process of thinking critically about what we do, identifying opportunities for improvement and, where appropriate, further learning needs

**Resources:** This covers any physical or human resource that supports the learning and development process and could include technical equipment, Information Technology-based learning, handouts, workbooks, people – for example outside speakers – and visits to places of interest

**Risk:** This relates to any risk to the facilitation of learning and development. This includes health and safety but could also cover, for example, the risk of setting unrealistic goals or selecting inappropriate learning methods

## LSILADD02

### Identify individuals' learning and development needs

#### Overview

This standard is about carrying out a training and learning needs analysis for individual learners.

#### Performance criteria

You must be able to:

- P1 identify the learner's objectives, motivation to learn and any requirements relevant to the learning needs analysis
- P2 review the learner's achievements, evaluating these against relevant objectives and requirements
- P3 use safe, reliable and valid methods to assess the learner's capabilities and potential
- P4 analyse the learner's capabilities and potential in the context of their objectives and other requirements
- P5 agree and prioritise the learner's learning needs
- P6 support learners in identifying their own preferred ways of learning
- P7 give the learner constructive and realistic feedback on their expectations and possible learning and development opportunities
- P8 maintain agreements about confidentiality.

#### Knowledge and understanding

You need to know and understand:

- K1 the principles that underpin learning needs analysis for individual learners

- K2 why it is important to identify a learner’s objectives and motivation to learn when analysing their learning needs
- K3 other requirements from organisations or external agencies that may affect a learning needs analysis
- K4 methods of reviewing a learner’s formal and informal achievements
- K5 methods of giving recognition for prior learning and achievement
- K6 methods, which include the appropriate use of technology, to carry out an initial assessment of capability and potential
- K7 how to select initial assessment methods which are safe, reliable and valid for the learner and their objectives
- K8 how to assess and manage risk when carrying out initial assessments
- K9 issues related to equality and diversity that may affect an individual learning needs analysis and how to address these
- K10 who to make agreements with and the issues to consider when prioritising an individual’s learning needs
- K11 the communication and personal skills that practitioners need when identifying individuals’ learning needs
- K12 preferred ways of learning and how these may affect choices about possible learning and development opportunities
- K13 different methods of supporting learners to identify their preferred ways of learning, and how to use this information to support their learning
- K14 different methods of providing feedback to a learner on the outcomes of the learning needs analysis, and the advantages and disadvantages of these methods
- K15 why confidentiality is important when identifying learning needs and what information to safeguard.

**Glossary**

**Assess and manage risk:** This could be a formal and written risk assessment but could be informal and dynamic – monitoring and controlling risk on an ongoing basis

**Learner achievements:** These could be formal e.g. examination grades or informal e.g. periods of work experience and skills and knowledge gained through these

**Requirements:** These could be the requirements of the practitioner’s own organisation or those of an external organisation, such as funding body or awarding organisation

**Risk:** This includes health and safety risks but may also include, for example, the risk of initial assessment methods not being accurate or evidence of past achievement not being authentic.

**Safe:** This includes physical safety as well as emotional well-being.

### Develop and prepare resources for learning and development

#### Overview

This standard is about preparing resources to support learning and development. It covers developing resources 'from scratch' as well as adapting and preparing existing resources to meet the needs of learners. It also covers the preparation of resources including the learning environment, learning materials and equipment used to support learning.

#### Performance criteria

You must be able to:

- P1 agree the range and purpose of resources required
- P2 identify the resource needs of the individuals or groups that the resources are being prepared for
- P3 identify and develop resources which are appropriate to the target group and the purpose for which they are required
- P4 ensure anyone else who is using the resources receive the necessary guidance
- P5 ensure adaptations to existing resources are consistent with learning needs and professional practice
- P6 ensure resources are consistent with legislative, safety, equality and diversity and professional guidelines
- P7 make sure that resources are checked and tested to ensure they meet required standards and learner needs.

#### Knowledge and understanding

You need to know and understand:

- K1 the different types of resources that can be used to support learning across the full range of the training cycle
- K2 the range of resources available to support different types of needs
- K3 the importance of distinguishing between different user needs and the factors which are important in selecting and developing resources to meet these needs
- K4 the factors that need to be considered in the effective preparation and development of learning resources, including those for the learning environment, learning materials and equipment
- K5 how to identify costs and timescales for resource development
- K6 the factors which are important in selecting and developing resources to meet the needs of different learners, taking account of the need for equality and diversity
- K7 how to ensure that the language, style and format of the materials are appropriate to the needs of the learners.
- K8 how to develop simulated exercises that replicate real working challenges
- K9 how to set-up and use equipment to support learning and development
- K10 the contribution and challenges that technology can make to the development and adaptation of different types of resources and the challenges posed by these
- K11 how to develop guidance for the use of resources and how to encourage consistent application
- K12 the types of adaptations that could be made to resources to make them more appropriate to learning needs and user requirements
- K13 the legislative, safety and professional guidelines relating to the development and adaptation of resources, including those relating to intellectual property, copyright and patents
- K14 the importance of checking and testing resources to make sure they are of the required standard and how to do this effectively
- K15 how to make adaptations to the learning environment to support the learning process

K16 the preparation, support and qualifications that staff require to contribute effectively to learning and development activities within own area of responsibility.

**Evaluate and improve learning and development sessions**

**Overview**

This standard is about evaluating learning and development provision and planning/implementing quality improvements.

**Performance criteria**

You must be able to:

- P1 identify the purpose and scope of the evaluation
- P2 identify quality requirements and appropriate measures of performance
- P3 identify methods for monitoring, and collecting, managing and analysing data
- P4 collect and analyse data according to identified monitoring procedures
- P5 identify strengths and areas for improvement
- P6 evaluate own contribution to working within quality systems
- P7 ensure that potential improvements are realistic and achievable
- P8 work with others to plan and implement improvements to learning and development P9 monitor and evaluate the impact of improvements.

**Knowledge and understanding**

You need to know and understand:

- K1 the key concepts and principles of quality assurance and continuous improvement

- K2 the quality requirements appropriate to own work context and work role
- K3 how to research and keep up to date with quality requirements relevant to learning and development
- K4 industry recognised standards relevant to learning and development and the processes and activities which deliver excellence in the work context being evaluated
- K5 how to identify performance indicators relevant to the area of learning and development being evaluated
- K6 how to set realistic targets, the contribution that targets can make to evaluation processes and the drawbacks associated with target driven work
- K7 the strengths and weaknesses of different monitoring and information collection methods and how to develop and administer these methods
- K8 the range, amount and frequency of data – including qualitative and quantitative – that needs to be collected and analysed to give valid information about quality
- K9 the contribution that technology can make to the monitoring and evaluation process
- K10 the principles of information management and how to establish systems for the monitoring and management of qualitative and quantitative data
- K11 processes, procedures and methods involved in data analysis and interpretation
- K12 what to monitor for specific purposes and how to record and store it
- K13 how to contribute to self-assessment and evaluation processes
- K14 the role and functions of individuals and teams in improving quality and raising standards
- K15 the importance of involving the learner in quality improvement
- K16 how to encourage the learner to contribute to self-assessment processes
- K17 the impact of the wider learning environment on the learner experience
- K18 how to use feedback to develop own practice specific to the relevant quality systems
- K19 how to act on the outcomes of quality assurance, including self- assessment and evaluation
- K20 how to contribute to quality improvement plans
- K21 how to work with those involved in the learning process to influence and implement quality improvement
- K22 the confidentiality and data protection legislation relevant to the collection and storage of information in learning and development.

## LSIYW3.3.1 v2

### Develop productive working relationships with colleagues

#### Overview

This standard is about developing working relationships with colleagues, within your own organisation, community and within other organisations that are productive in terms of supporting and delivering your work and that of the overall organisation and community. This standard is recommended for team leaders and first line managers.

#### Performance criteria

You must be able to:

- P1 establish working relationships with all colleagues who are relevant to the work being carried out
- P2 recognise, agree and respect the roles and responsibilities of colleagues
- P3 understand and take account of the priorities, expectations, and authority of colleagues in decisions and actions
- P4 fulfil agreements made with colleagues and let them know
- P5 advise colleagues promptly of any difficulties or where it will be impossible to fulfil agreements
- P6 identify and sort out conflicts of interest and disagreements with colleagues in ways that minimise damage to work being carried out
- P7 exchange information and resources with colleagues to make sure that all parties can work effectively
- P8 provide feedback to colleagues on their performance and seek feedback from colleagues on your own performance in order to identify areas for improvement.

#### Knowledge and understanding

You need to know and understand:

- K1 the benefits of developing productive working relationships with colleagues
- K2 principles of effective communication and how to apply them in order to communicate effectively with colleagues
- K3 how to identify disagreements with colleagues and the techniques for sorting them out
- K4 how to identify disagreements with colleagues and the measures that can be used to manage or remove them
- K5 how to take account of diversity issues when developing working relationships with colleagues
- K6 the importance of exchanging information and resources with colleagues
- K7 how to get and make use of feedback on your performance from colleagues
- K8 how to provide colleagues with useful feedback on their performance

Youth work specific knowledge and understanding

- K9 regulations and codes of practice that apply in youth work
- K10 standards of behaviour and performance in youth work
- K11 working culture of youth work

Context specific knowledge and understanding

- K12 current and future work being carried out
- K13 colleagues who are relevant to the work being carried out, their work roles and responsibilities
- K14 processes within the organisation for making decisions
- K15 line management responsibilities and relationships within the organisation
- K16 the organisation's values and culture
- K17 power, influence and politics within the organisation

K18 standards of behaviour and performance expected in the organisation  
K19 information and resources that different colleagues might need  
K20 agreements with colleagues

**Additional information**

Working with representatives of the sectors within youth work, LLUK has agreed a suite of values and principles which distinguish youth work from other, sometimes related, activities involving young people. These values and principles are at the core of the work undertaken within youth work and underpin this standard. The behaviours required within this standard include those which reflect particular values and principles.

Visit the website below to access the Youth Work NOS including the Values, which are at the core of youth work <http://webarchive.nationalarchives.gov.uk/20110414152025/http://www.lluk.org/2010/11/national-occupational-standards-for-youth-work/>

**Behaviours**

The behaviours that underpin this standard require you to demonstrate that you:

1. present information clearly, concisely, accurately and in ways that promote
2. seek to understand people's needs and motivations
3. make time available to support others
4. agree clearly what is expected of others and hold them to account
5. work to develop an atmosphere of professionalism and mutual support
6. model behaviour that shows respect, helpfulness and co-operation
7. keep promises and honour commitments
8. consider the impact of your own actions on others
9. say no to unreasonable requests
10. show respect for the views and actions of others.

**Glossary**

'Colleagues' are any people you are expected to work with, whether they are at a similar position or in other positions.

**Assess Workplace Competence Using Direct Methods**
**Source: Learning and Development Standard 9**
**Who this unit is for**

This unit covers the following assessment methods:

- Observation
- related questioning
- inspecting work products (created at the time of the observation).

Someone holding this unit will be able to assess SVQs (or individual units), other workplace qualifications and in-company standards that only require one or more of these three assessment methods.

‘Direct assessors’ of this kind may also contribute to the assessment of SVQs, other workplace qualifications or in-company standards that require a wider range of assessment methods, where the final assessment decision is being made by another assessor.

For this unit, assessments must be of a substantial but realistic and manageable piece of the candidate’s work. Each assessment should cover the full assessment cycle to include planning, judging evidence, providing feedback and recording the decision.

**What this unit is about**

The types of activities you will be involved in include:

1. Preparing and planning assessments
2. Assessing candidate performance and knowledge
3. Confirming progression and achievement

**Terminology**

Within this unit the following explanations and examples apply:

Assessment method	For example, observation, questioning, checking products of work
Authentic	Being the candidate’s own work
Equality	A state of fair treatment that is the right of all the people regardless of differences in, for example, culture, ability, gender race, religion, wealth, sexual orientation, or any other group characteristic
Diversity	Acknowledging that each individual is unique and recognising our individual differences in, for example, culture, ability, gender, race, religion, wealth, sexual orientation, or any other individual characteristic.
Identify and collect evidence	This is done through the assessment process, for example by assessor observations, checking products of work, asking questions
Reliable	Consistently achieves the same results with the same (or similar) group of learners.
Requirements	These could be the requirements of the practitioner’s own organisation or those of an external organisation, such as awarding organisation

Risk assessment	This could be a formal written risk assessment but could be informal and dynamic – monitoring and controlling risk on an ongoing basis. Risk includes health and safety but may also cover other types of risk, for example assessment methods
Sufficient	Enough evidence as specified in Evidence Requirements or Assessment Strategy
Valid	Relevant to the criteria against which the candidate is being assessed
Fair	Ensuring that everyone has an equal chance of getting an accurate assessment
Safe	This covers the health, safety and welfare of the person being assessed
<b>Performance</b>	<b>Knowledge</b>
What the candidate must do	What the candidate must know
<b>1. Prepare and plan for assessments</b>  a) Ensure candidates understand the purpose, requirements and processes of assessment  b) Identify evidence that is valid, authentic and sufficient  c) Plan to use valid, fair and reliable and safe assessment methods  d) Plan assessment to meet requirements and candidate needs	1. The range of information that should be made available to candidates before assessment begins  2. The standards to be assessed and the assessment/evidence regulatory requirements  3. The candidates’ job role and their work environment and how this influences the assessment approach you adopt  4. When you would use summative assessment  5. The uses, benefits and drawbacks of the different assessment methods, including those that use technology  6. Types of risks when assessing and how to manage them  7. How to plan assessments in own area of responsibility, involving candidates and allowing access  8. How assessment arrangements can be adapted to meet the diverse needs of individual candidates  9. How disputes and appeals will be handled and how confidentiality will be maintained.
<b>2. Assess candidate performance and knowledge</b>  a) Collect evidence that is valid, authentic and sufficient  b) Use valid, fair, reliable and safe assessment methods  c) Make assessment decisions against specified criteria	1. The purpose and value of feedback in the assessment cycle  2. How to deliver constructive feedback and the next steps in the assessment process  3. Maintain records of assessment and candidate progress that ensure access and data protection requirements are adhered to

d) Work with others to ensure the standardisation of assessment practice and outcomes	4. Internal quality assurance process and procedures and how you have applied them through your practice

 The types of activities you will be involved in include:

1. Preparing and planning assessments
2. Assessing candidate performance and knowledge
3. Confirming progression and achievement

**Terminology**  
 Within this unit the following explanations and examples apply:

Assessment method	For example, observation, questioning, checking products of work Authentic Being the candidate’s own work
Equality	A state of fair treatment that is the right of all the people regardless of differences in, for example, culture, ability, gender race, religion, wealth, sexual orientation, or any other group characteristic
Diversity	Acknowledging that each individual is unique and recognising our individual differences in, for example, culture, ability, gender, race, religion, wealth, sexual orientation, or any other individual characteristic.
Identify and collect evidence	This is done through the assessment process, for example by assessor observations, checking products of work, asking questions
Reliable	Consistently achieves the same results with the same (or similar) group of learners.
Requirements	These could be the requirements of the practitioner’s own organisation or those of an external organisation, such as awarding organisation

Risk assessment	This could be a formal written risk assessment but could be informal and dynamic – monitoring and controlling risk on an ongoing basis. Risk includes health and safety but may also cover other types of risk, for example assessment methods	
Sufficient	Enough evidence as specified in Evidence Requirements or Assessment Strategy	
Valid	Relevant to the criteria against which the candidate is being assessed	
Fair	Ensuring that everyone has an equal chance of getting an accurate assessment	
Safe	This covers the health, safety and welfare of the person being assessed	
<b>Performance</b>	<b>Knowledge</b>	
What the candidate must do	What the candidate must know	
<b>1. Prepare and plan for assessments</b>  a) Ensure candidates understand the purpose, requirements and processes of assessment  b) Identify evidence that is valid, authentic and sufficient  c) Plan to use valid, fair and reliable and safe assessment methods  d) Plan assessment to meet requirements and candidate needs	1. The range of information that should be made available to candidates before assessment begins  2. The standards to be assessed and the assessment/evidence regulatory requirements  3. The candidates’ job role and their work environment and how this influences the assessment approach you adopt  4. When you would use summative assessment  5. The uses, benefits and drawbacks of the different assessment methods, including those that use technology  6. Types of risks when assessing and how to manage them  7. How to plan assessments in own area of responsibility, involving candidates and allowing access  8. How assessment arrangements can be adapted to meet the diverse needs of individual candidates  9. How disputes and appeals will be handled and how confidentiality will be maintained	
<b>2. Assess candidate performance and knowledge</b>  a) Collect evidence that is valid, authentic and sufficient  b) Use valid, fair, reliable and safe assessment methods	1. The purpose and value of feedback in the assessment cycle  2. How to deliver constructive feedback and the next steps in the assessment process  3. Maintain records of assessment and candidate progress that ensure access and data protection requirements are adhered to	

<p>c) Make assessment decisions against specified criteria</p> <p>d) Work with others to ensure the standardisation of assessment practice and outcomes</p>	<p>4. Internal quality assurance process and procedures and how you have applied them through your practice</p>

<p><b>LSILADD03</b></p> <p style="text-align: center;"><b>Plan and prepare learning and development programmes</b></p>
<p><b>Overview</b></p> <p>This standard is about planning and preparing learning and development programmes to meet identified needs and requirements. It applies to planning for both groups and individuals. 'Programme' refers to any planned sequence of learning opportunities which lead to agreed outcomes. Examples might include: a course, a programme of learning in the workplace, or an individual coaching programme.</p>
<p><b>Performance criteria</b></p> <p>You must be able to:</p> <p>P1 identify learning outcomes that meet agreed learning and development needs P2 develop a coherent plan of learning and development opportunities appropriate to the learning outcomes and internal/external requirements P3 identify realistic delivery and assessment methods appropriate to learning and development opportunities P4 identify the resources needed to deliver the plan and ensure these are within allocated budgets P5 ensure arrangements for the delivery of the plan are in place P6 identify how the learning will be monitored and evaluated P7 communicate the plan to learners and other people involved in the provision of learning and development P8 ensure the plan conforms to relevant policies, procedures and legislation.</p>
<p><b>Knowledge and understanding</b></p> <p>You need to know and understand:</p> <p>K1 how information acquired from analysing learning and development needs contributes to planning, and the factors that need to be taken into account</p> <p>K2 how to identify a range of options for meeting learning outcomes and the strengths and weaknesses of different approaches, including the use of technology</p> <p>K3 how to develop a plan of learning and development opportunities that meets different learning needs, including those relating to equality and diversity</p> <p>K4 the types of internal and external requirements that may affect planning, including, where relevant, bilingualism</p> <p>K5 factors that need to be managed when arranging and co-ordinating learning and development opportunities</p> <p>K6 how to carry out risk assessments, and the factors that need to be considered in the learning context</p> <p>K7 the importance of flexibility and contingency planning when developing programmes</p> <p>K8 the learning cycle and how this should inform the planning process</p> <p>K9 why it is important for learner needs to be at the centre of programme plans</p> <p>K10 how to involve learners in the development of programme plans</p> <p>K11 the range of resources – including the use of technology – that may be needed to facilitate, monitor and evaluate learning and development and how to identify them</p> <p>K12 how planning and resource needs can be affected by the learners' identified abilities and needs, including the use of language</p> <p>K13 the organisational, legal and professional requirements that should be followed when planning learning and development programmes</p> <p>K14 the arrangements required for the delivery of the plan including the systems, structures and relationships needed for effective implementation</p> <p>K15 the factors that need to be considered when monitoring the implementation of the plan and evaluating the effectiveness of learning</p>

K16 how continuous evaluation can help to shape the development and implementation of learning plans and improve learning  
K17 the colleagues with whom plans should be shared  
K18 how to encourage the commitment and understanding which learners and colleagues need to be effective in the implementation of programmes.

### Glossary

**Delivery methods:** Any method that supports learning and development, for example, presentations, instructions, demonstrations, opportunities to apply knowledge and practise skills, experiential learning, group and individual projects and research

**Learning and development opportunities:** Any event that assists the acquisition of skills and knowledge. This includes formal sessions as well as experiences such as visits, time spent in the workplace, personal research etc.

**Outcomes:** These could be outcomes for the group as a whole – for example enabling team effectiveness – and/or outcomes for the individuals who make up the group – for example individual skill acquisition

**Programme:** A planned sequence of learning and development opportunities over a period of time which lead to agreed learning outcomes, for example a ‘course’

**Requirements:** These could be the requirements of the practitioner’s own organisation or those of an external organisation, such as funding body or awarding organisation

**Resources:** This covers any physical or human resource that supports the learning and development process and could include technical equipment, IT-based learning, handouts, workbooks, people – for example outside speakers – and visits to places of interest

**Risk assessments:** This could be a formal and written risk assessment but could be informal and dynamic – monitoring and controlling risk on an ongoing basis. Risk includes health and safety but may also cover e.g. finance, availability of resources etc.

This unit is about encouraging and supporting the identification and practical implementation of ideas in your area of responsibility. The initial ideas will primarily come from people who work in your area of responsibility, including yourself, and will focus on:  new products and/or services  improvements to existing products and/or services  improvements to existing practices, procedures, systems, ways of working, etc. within the team or those of the wider organisation or customers or suppliers. The 'area of responsibility' may be, for example, a branch or department or functional area or an operating site within an organisation. The unit is recommended for first line managers and middle managers.

This unit is linked to units: B6 Provide leadership in your area of responsibility; C1 Encourage innovation in your team; C3 Encourage innovation in your organisation in the overall suite of National Occupational Standards for Management and Leadership.

**Performance criteria**

You must be able to:

- P1 Identify and, periodically, review the approach to and level of innovation within your area of responsibility
- P2 Motivate all the people working in your area to identify ideas for new products and/or services and improvements and other potential sources of ideas and encourage the sharing of this information
- P3 Respond enthusiastically to ideas from individuals or teams and provide constructive feedback
- P4 Establish and operate a fair and open method for considering and selecting initial ideas for further development
- P5 Discuss and agree ways in which selected ideas can be further developed and tested by individuals or teams
- P6 Provide ongoing support, encouragement and resources to individuals and teams engaged in the further development and testing of ideas and help to remove any identified obstacles
- P7 Identify, in discussion with the relevant individuals and teams, those ideas which could be practically implemented, providing help in drawing up and submitting business cases and plans in support of ideas
- P8 Approve the practical implementation of ideas, based on the identified benefits, risks and required resources, when you have the authority to do so and monitor and review their progress
- P9 Champion business cases and plans for ideas submitted by individuals and teams from your area to other people in the organisation and communicate progress and decisions
- P10 Recruit and select creative people and encourage and develop the creativity of other people in your area of responsibility

P11 Encourage individuals and teams in your area to take acceptable risks in pursuing innovation and to make and learn from mistakes

P12 Ensure that the originators and developers of any ideas which are successfully implemented receive recognition for their achievement.

### Develop productive working relationships with colleagues and stakeholders

#### Overview

This standard is about developing productive working relationships with colleagues, within your own organisation, the community and within other organisations with which your organisation works, and with identified stakeholders. It involves being aware of the roles, responsibilities, interests and concerns of colleagues and stakeholders and working with and supporting them in various ways. The need to monitor and review the effectiveness of working relationships with colleagues and stakeholders is also a key requirement of this standard. This standard is recommended for first line managers and middle managers.

#### Performance criteria

You must be able to:

P1 identify stakeholders and the background to and nature of their interest in the activities and performance of the organisation

P2 establish working relationships with relevant colleagues and stakeholders

P3 recognise and respect the roles, responsibilities, interests and concerns of colleagues and stakeholders

P4 provide colleagues and stakeholders with appropriate information to enable them to perform effectively

- P5 consult colleagues and stakeholders in relation to key decisions and activities and take account of their views, including their priorities, expectations and attitudes to potential risks
- P6 fulfil agreements made with colleagues and stakeholders and let them know
- P7 advise colleagues and stakeholders promptly of any difficulties or where it will be impossible to fulfil agreements
- P8 identify and sort out conflicts of interest and disagreements with colleagues and stakeholders in ways that minimise damage to work and activities and to the individuals and organisations involved
- P9 monitor and review the effectiveness of working relationships with colleagues and stakeholders, seeking and providing feedback, in order to identify areas for improvement

#### Allocate and monitor the progress and quality of work in your area of responsibility

##### Overview

This unit is about ensuring that the work required in your area of responsibility is effectively planned and fairly allocated to individuals and/or teams. It also involves monitoring the progress and quality of the work of individuals and/or teams to ensure that the required level or standard of performance is being met and reviewing and updating plans of work in the light of developments. The unit is recommended for first line managers and middle managers.

##### Performance criteria

You must be able to:

P1 confirm the work required in your area of responsibility with your manager and seek clarification, where necessary, on any outstanding points and issues

P2 plan how the work will be undertaken, seeking views from people in your area of responsibility, identifying any priorities or critical activities and making best use of the available resources

P3 ensure that work is allocated to individuals and/or teams on a fair basis taking account of skills, knowledge and understanding, experience and workloads and the opportunity for development

P4 ensure that individuals and/or teams are briefed on allocated work, showing how it fits with the vision and objectives for the area and the overall organisation, and the standard or level of expected performance

P5 encourage individuals and/or team members to ask questions, make suggestions and seek clarification in relation to allocated work

P6 monitor the progress and quality of the work of individuals and/or teams on a regular and fair basis against the standard or level of expected performance and provide prompt and constructive feedback

P7 support individuals and/or teams in identifying and dealing with problems and unforeseen events

P8 motivate individual and/or teams to complete the work they have been allocated and provide, where requested and where possible, any additional support and/or resources to help completion

P9 monitor your area for conflict, identifying the cause(s) when it occurs and dealing with it promptly and effectively

P10 identify unacceptable or poor performance, discuss the cause(s) and agree ways of improving performance with individuals and/or teams

P11 recognise successful completion of significant pieces of work or work activities by individuals and/or teams

P12 use information collected on the performance of individuals and/or teams in any formal appraisals of performance

P13 review and update plans of work for your area, clearly communicating any changes to those affected.

### Build and manage teams

#### Overview

This standard is about building a team and managing it through its various stages of growth. It covers teams set up for a particular project or to carry out a specific task and also teams that are ongoing. It is equally relevant to cases where the manager has to set up the team from scratch and to those situations where the manager inherits an existing team and needs to help it to function effectively. The standard is recommended for any manager who is required to lead a team.

#### Performance criteria

You must be able to:

P1 clearly articulate the purpose of the team – what it has to achieve, and why a team rather than an individual approach is required

P2 identify the diversity of expertise, knowledge, skills and attitudes required to achieve the team purpose

P3 identify team members' expertise, knowledge, skills and attitudes and agree their particular roles within the team

P4 use team selection and development processes to develop any expertise, knowledge, skills and attitudes lacking in the team

P5 agree with team members the behaviours that are likely to help the achievement of the team purpose and those that should be avoided because they are likely to hinder progress

P6 help team members understand their unique contribution to the team, the contributions expected of fellow team members and how these complement and support each other

P7 provide opportunities for team members to get to know each other's strengths and weaknesses and build mutual respect and trust

P8 allow time for the team to develop through its stages of growth

P9 help the team seize opportunities presented by changes in the team composition and support the introduction of new team members

P10 encourage team members to share problems with each other and solve these creatively together

P11 encourage open communication between team members, including providing feedback designed to enhance the performance of fellow team members and the team as a whole

P12 review the performance of the team at appropriate points and evaluate how well its purpose is being achieved

P13 celebrate team and individual successes together, and acknowledge when things go wrong, before refocusing the team's energy on achieving its purpose

P14 disband the team if and when its purpose has been achieved and it is no longer required for other purposes.

### Manage quality systems

#### Overview

This standard is about managing quality systems to ensure that business processes consistently deliver products/services that meet customers' and other stakeholders' quality expectations and legal and regulatory requirements.

ISO9001:2000, EFQM Excellence Model, Total Quality Management, Six Sigma, Lean Manufacturing, PQASSO and Investors in People are some of the common generic quality assurance systems and standards in use in the UK, although almost every sector has specific quality standards and requirements. Managers responsible for assuring quality in their organisation, or their part of the organisation, need to make sure systems are in place and people are competent to manage processes and deliver products and/or services whose quality meets the expected standards. The standard is for managers who have specific responsibility for managing quality systems to assure quality of products and/or services in their organisation, or their part of the organisation.

#### Performance criteria

You must be able to:

P1 keep yourself up-to-date with P1.1 current developments, tools and techniques in quality management P1.2 customers' and other stakeholders' expectations regarding quality P1.3 legal and regulatory requirements  
 P2 ensure the quality standards to which you are working P2.1 are capable of delivering the quality of products/services your customers expect P2.2 allow you to obtain any expected quality marks, awards or accreditation P2.3 are in line with your organisation's values, aims and objectives P2.4 meet any legal and regulatory requirements

- P3 ensure systems, plans and resources are in place to ensure quality standards are met and maintained
- P4 ensure that people are continuously updated about their roles in meeting quality standards and are competent to fulfil their roles
- P5 identify and assess risks of shortfalls in the quality of processes and products/services and take preventative action to mitigate these risks
- P6 encourage people to take personal responsibility for achieving quality standards and to address or report any actual or potential shortfalls
- P7 obtain sufficient, valid information from your quality assurance system and other sources, including customers, to enable you to evaluate accurately whether processes and products/services are meeting the required standards
- P8 provide feedback to motivate people to maintain quality standards and continuously improve performance
- P9 detect and record any shortfall in the quality of processes, products and services, investigate the cause(s) and take prompt remedial action
- P10 report quality performance, including shortfalls and corrective actions taken, to those who need to know, within agreed timescales
- P11 encourage customers and those involved in delivering products/services to identify and recommend quality improvements
- P12 develop resourced plans to implement quality improvements which deliver significant benefits at reasonable cost and acceptable level of risk.

### **Knowledge and understanding**

You need to know and understand:

General knowledge and understanding

- K1 the importance of keeping up-to-date with current developments, tools and techniques in quality management, customers' and other stakeholders' quality expectations and legal and regulatory requirements
- K2 how to ensure the quality standards to which you are working are capable of delivering the quality of products/services your customers expect
- K3 any relevant quality marks, awards or accreditation, and how the quality standards to which you are working can obtain these
- K4 how to ensure the quality standards to which you are working meet any legal and regulatory requirements
- K5 the importance of ensuring systems and plans are in place to ensure quality standards are met and maintained, and how to do so
- K6 the importance of communicating information clearly, concisely and accurately, and how to do so
- K7 the importance of keeping people updated about their roles in meeting quality standards, and how to ensure people are competent to fulfil such roles
- K8 the importance of encouraging people to take personal responsibility for achieving quality standards
- K9 the importance of encouraging people to address or report any actual or potential shortfalls in the quality of processes and products/services
- K10 the importance of obtaining sufficient, valid information to enable you to evaluate accurately whether processes and products/services are meeting the required standards, and how to do so
- K11 the importance of providing feedback to motivate people to maintain quality standards and continuously improve performance, and how to do so
- K12 how to detect and record any shortfall in the quality of processes, products and services, and investigate the cause(s) and appropriate remedial action to take
- K13 how to report quality performance, including shortfalls and corrective actions taken, to those who need to know, within agreed timescales
- K14 the importance of encouraging customers and those involved in delivering products/services to identify and recommend quality improvements
- K15 how to develop resourced plans to implement quality improvements which deliver significant benefits at reasonable cost and acceptable level of risk

## **APPENDIX 5 - INTERNAL VERIFIER TEMPLATE DOCUMENTS**

### **5A: Sample Internal verification Strategy**

This document indicates what may be covered as part of an internal verifier's strategy. An effective internal verification strategy ensures:

- A forum for discussion of borderline cases
- Assessor networking and sharing of good practice
- Valid, reliable and consistent training and/or assessment
- Recorded assessment decisions which are appropriate, consistent, fair, transparent and equitable
- Clarity for candidates about assessment requirements
- Effective preparation and presentation for external verification
- Reduction in level of direct external verification scrutiny

To underpin the IV/ verification process a plan of internal activity should be developed indicating

- what will happen
- when it will happen
- who will be involved

New instructors/assessors must:

- a) be supplied with assessment and materials
- b) clearly understand assessment requirements and procedures

All assessors must:

- a) know the name of the person who will manage the IV process and the name of the IV

- b) know how IV/ verification will happen, when it will happen and who will be involved
- c) be informed about issues raised through previous internal and external quality assurance

### **On Course Monitoring**

The IV should:

- a) Sample assessments to ensure that:
  - feedback to candidates is clear and constructive
  - teaching and assessment activities are standard and appropriate
  - assessment decisions are fair and consistent
  - teaching and assessment records are clear
- b) Undertake standardisation activities
- c) Ensure candidates understand assessment requirements
- d) Provide advice and support for Assessors and share good practice
- e) Identify good assessment practice
- f) Record internal verification activities and findings, list action points and report to instructors/assessors and the EV
- g) Liaise with the EV as necessary

### **End of Course Checking**

The IV should:

- a) monitor progress against previous action points
- b) ensure assessment records are complete and accurate
- c) ensure evidence of achievement is appropriate and standardised
- d) record internal verification activities and findings, list action points, and report these to assessors and the EV

### **Guidance on Sampling and Record Keeping**

#### **What do IVs/IVs sample and why?**

IVs are responsible for monitoring the quality of assessment, hence the need for them to sample assessment practices and decisions. It is not usually possible or necessary to verify every aspect of assessment at each internal verification. A properly selected representative sample should identify any issues with assessment practices and decisions.

#### **Selecting a sample**

To select a representative sample, IVs must take account of factors which may impact on the quality of assessment. These factors are used to define a sampling strategy that determines the size of the sample and enables judgements to be made.

Key factors to consider are:

- Sites of delivery
- Number and experience of Assessors
- Number of courses/assessments
- Previous IV actions/recommendations
- Assessment methods
- Special arrangements
- EV recommendations
- Borderline cases
- Anything else that you think might impact on assessment decisions

The sample should include an element of random selection by the IV. It is not necessary to sample across every aspect of the programme at each event but the plan should seek to cover everything over a period of time, e.g. 3 years.

### **Which records should be kept?**

Records of internal quality assurance/ verification must be kept and made available to the EV during monitoring visits. These should demonstrate that the internal verification procedures have been carried out. IVs should record two sets of information:

1. The sample taken by the IV
2. The comments and feedback to the Assessor following the sampling exercise, showing any recommendations or action required and how this was resolved.

There is a sample form shown below that you may use or adapt to suit your own requirement.
